CLENCOE,

Will make the present season of 1870, which has commenced and will expire the 20th of the ty, at the Farmer's and Trader's Livery States back of Central Horel, at \$25 to insure a mare ly, at the Farmer's and Tracer's taxy, seaso-back of Central Hotel, at \$25 to insure a maze in toal; the money due in every instance when the lact is ascertained or the mare perted with. In offering the services of GLENCOE in the breeding public we feel confident that we are offering a superior horse at less price than ean be obtained anywhere else in Ken ocky. There is no horse that approximates to him that stands for less than \$50 the season. The advertisements of all the modern trotting stallions, or nearly all, claim to be descendents and imbred to old imported Messenger. Now if the Messenger cross is so desirable in trotters of the present day, why in the name of common sense do we not seek this cross in its present early, which can be found in stuffices or mares that lave strains of American Eclipse was by Daroc, dan, Miller's Damsel, the best daughter of old Imported Messenger. By reference to Glenoce's pedigree you will see that his stre's dam was by Hitching's Eclipse, and he by American Eclipse, which is as direct as it can be obtained at this day, as old imported Messenger has been dead 62 years. it can be obtained at this day, as old imported Messenger has been dead 62 years. Nore.—Gleroce's colts are coming remarkably large and fine; and so firmly convinced are we, that blood will tell, that we will show him and ten of his coits that come this spring against my other horse if ing business in Shelby county and the same number of colts for a \$50 premium. The successful party to give a \$25 premium, each, to the finest horse colt and the finest mare colt of his horse's get. To 1a shown under the rules and regulations of the Shelby county Fsir. To be indeed as the firest and best horse at d colts for all purposes. This proposition open until July lat, 1870.

Description and Pedigree.

GLENCOE is 6 years old this Spring, I hands high, and for blood-like appearance, rich ness of color, style, fluish, bone, nuscular power and unparalleled action, cannot be excelled. THE Frame is made of the finest Hoop Iron and the Springs of the best Stee', galvanized with copper, leaving no room for Bugs. It is light, and can be easily moved by any one It is so constructed, should a spring get broken, it can be re-placed at the small cost of 10 Sweepstake Prenium,—beating Ten Brook's lumported English Thoroughbrid, Miles' to ed do well to call at
